Liminal Letters

Beloveds,

When I took theater and drama courses in high school and college, I was taught how to have a stage voice—how to make sure I projected my voice to the back of the theater.

When I started to see shows in which the actors were all wearing microphones I was put off at first. Don't these actors know how to project? Eventually I came to understand that the microphones were necessary for the newer music, that they make shows more accessible to those with hearing difficulties, and that it was better for the actors, too.

Technology has been advancing at ever-increasing rates over the last two hundred years. And the computer age has pushed these advances and changes into overdrive. It can be really hard to keep up.

When I started attending a UU church in the late 1980's, the weekly newsletter went out in the mail. This technological advance was made possible by higher-speed copy machines—much better than the “dittos” we had when I was in elementary school. No carbon copies needed—a fresh copy for every household. Now nearly everything is via e-mail, which saves time, money, and paper. But it can feel like we're in information overload much of the time. There's so much out there, and most of it is readily available at our fingertips (or even at our voice commands). How do we keep from drowning in all of it?

Some folks have learned to take intentional technology breaks. Social media sabbaths, quiet times or zones where no phones or other electronics are allowed. Dinners where all the phones get piled on the table, and the first person who picks up their phone for any reason pays for dinner (would you be paying or getting treated)?

There are many benefits to new technologies. Electronic medical records mean that multiple providers can easily share information. I can search a library from home. DVRs allow us to record all the episodes of our favorite shows without having to be home at the exact time they're on—or even without having to put a fresh tape in the VCR. But we must be mindful that the technology serves us rather than the other way around.

So, what's your favorite bit of technology that wasn't around when you were younger? And what's something you might do well to take a short break from now and then? When we live into our faith, what is helping you to keep love at the center, and to live a life filled with generosity, justice, equity, pluralism, transformation, and interdependence? If you'd like to share your answers, you could always send me an e-mail, or post on social media. 😊

*In shalom,
Pastor Madelyn, Interim Minister*

RE CORNER

Dear Beloveds,

I don't know about you, but I'm finding the world a little hard to bear right now. So, I thank the universe for your children, who light up my Sundays and give me hope for the future. What are they up to?

The high school youth group continues to craft their service for June. They are grappling with the differences between being with peers in their schools and being with peers at UUFSB. There is something special here, they say. This is a place where they feel free to be their entire selves without judgement.

Our middle school youth continue to explore other faiths. They just finished learning about Christianity with **Amy Hammock** and are moving through humanism, atheism, and agnosticism before entering the world of pagan faiths with **Pete DeSalvo** and **Doris Diamond**.

Meanwhile, the youngest are beginning to explore the values in the proposed revisions to Article II of our UUA bylaws. In March they learned about different types of transformation, and now they are thinking about interdependence. These are mature topics, but we invite the children to begin thinking about how to live our UU values when they are young. Don't ask them directly about the things they are learning...you'll usually get the non-response responses. But start a conversation about how we are all connected to each other and to all living things... Or start a conversation about how we can change what we see by looking through a kaleidoscope...

Two or three of our college-age students will be engaged in internships with the LIAC Student Activity Fund this summer. Here's a fun fact: our daughter Mina started doing environmental work (identifying plants!) at Sweetbriar Nature Center when she was 13. By her senior year in HS, she was an SAF intern there. She continued to work as an SAF intern at other gardens in Plattsburgh where she attended college. Now she works for Cornell Cooperative Extension near Plattsburgh. Her relationship with Sweetbriar, and the internship monies from SAF helped her to continue to learn and led her to the work she does now – and she is an employee, not an intern!! I know several young adults who came of age doing internships through SAF. Some had a straight path, often doing work related to the natural world, while others learned different skills. But they all had the opportunity to learn about paid work that was consistent with UU values and principles.

If you have a youth entering their senior year in HS or already in college, remind them of the SAF program. Details are [here](#). As I reflect on the things that children and youth are doing, I realize that we are teaching them how to engage with the world in ways that are true to our

values. Small steps, but important ones, especially in a world that feels very fractured. I hope that you are proud of our kids. I know that I am.

Namaste.

Deb

BULLETINS FROM THE BOARD

Dear Beloved Members and Friends,

I try to embrace change - recognizing it as an essential part of growth and part of my spiritual journey. Change allows us to adapt, to learn, and to flourish in new ways. In the spirit of embracing change, I am excited to share some updates from our last board meeting.

Moving Forward with the Merger

The merger with UUGSB (Unitarian Universalist Congregation of the Great South Bay) continues to move forward with the closing on the sale of their building. As we announced at the last Town Hall, we will be voting to merge at our Congregational Meeting on June 2. Through this merger, we will strengthen our community - combining our resources, talents, and passions to better serve the needs of our members and the wider world.

Ministerial Search Update

I am so grateful to the Search Committee as they continue to diligently seek out candidates for our next settled minister. Since the first round was incomplete, they have moved forward with the second round, and we are looking forward to their update in the coming weeks.

Board Subcommittees

In the next few months, I will be sharing updates on several initiatives that the board is focusing on for the remainder of the congregational year. We have created subcommittees to focus on updating our bylaws and board policies, creating a Program Council, developing current and future board members, and reducing our deficit. All of these initiatives will require some level of change in order to be successful.

In the spirit of spring, may we continue to bloom and grow as individuals and as a community. May we remain open to the beauty of change, trusting in our collective ability to navigate the journey ahead with grace and resilience.

*In fellowship,
Denise Stevenson
Board President*

STEWARDSHIP

Connecting In Love – Support the Fellowship with Your Pledge Today!

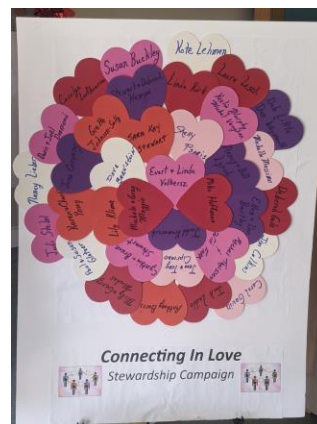

Trying to pick an amount to pledge, that would be both affordable as well as a fair representation of your commitment to the Fellowship, can be a complicated decision. We encourage everyone to take a look at the UUA guidelines in order to get a sense of what might be a fair amount to contribute next year. This Giving Guide table can be found in the pledge packet that was mailed to you, or online at

<https://uufsb.org/connection/2024-2025-stewardship-campaign-information>.

This is an exciting time in the life of our Fellowship as we discuss our visions for the future and begin taking steps to accomplish those visions. This year's Stewardship Campaign is the first step on that journey. Our generosity of both time and treasure is how we can grow by *Connecting In Love*.

In order to know how much the Fellowship can spend on all the things we need to serve our mission, our Finance Committee needs to be able to estimate pledge income for the upcoming year. Your donations may be spread over the full twelve months of the fiscal year that begins on July 1, but it's important to know the pledge amount now. You can mail in the paper pledge card that comes in your packet, pledge online at www.uufsb.org/pledge24-25 or contact the office with your pledge amount at office@uufsb.org or 631-751-0297. **Please submit your pledge for the upcoming fiscal year if you have not done so already.**

Thank you in advance for your support of our Fellowship community!

Judd Kramarcik,
Stewardship Campaign Chair

Want to Learn More about the Proposed Article II Revisions? Weds., May 8 through May 29, 7:30-9:00 p.m.

For those of you who are not familiar with Article II of the UUA Bylaws, this is where our Principles and Purposes are located. The last time they were substantially revised was in 1985 with some additional revisions added in 1987. There is a proposal to revise Article II that will be voted on by congregational delegates at General Assembly in late June.

Long Island Area Council (LIAC) of Unitarian Universalist Congregations **Secretary Nikki Willard** invites you to become more familiar with these proposed revisions. She will be facilitating a Wellspring group (a four-week "deep dive" into these changes). You are welcome to attend any or all of them. The Wellspring offering will begin on Wed., May 8 and continue each Wednesday through May 29 from 7:30-9:00 p.m. Please register with [this link](#).

The graphic associated with this new proposal, shown above, is in the form of a flower: LOVE at the center, with the following values as petals around: Justice, Generosity, Interdependence, Pluralism, Transformation, Equity, and, recently added in February, Peace and Reason.
